RESEARCH PROFILE

I study well-being at the intersection of entrepreneurship and family business, focusing on the person - venture interface: how people and the ventures they build and work to shape each other. My current projects examine family firms as workplaces and their effects on employee well-being, and how entrepreneurs managing chronic and life-threatening health conditions redefine entrepreneurial persistence.

POSITIONS

PhD Candidate in Business Administration, Jönköping International Business School Sept 2022 – present
Affiliated with the Centre for Family Entrepreneurship and Ownership (CeFEO)

Visiting Researcher (planned), University of St Andrews, Scotland 2026 – 2027, dates TBC
